

Introducing

PAPERLESS EXAMINATIONS

SAFE

SCALABLE

COST-EFFECTIVE

SLEEKER THAN AN ANSWER BOOKLET

Hashmint Technologies, headquartered in Bengaluru, is redefining the education technology landscape by introducing cutting-edge digital examination solutions that eliminate the need for paper. Through its leading platform, Hashmint Exam, the company is helping academic institutions worldwide make a smooth shift to modern, fully digital assessment methods.

With a strong vision to transform conventional exam practices, Hashmint stands as a pioneer in the digital exam domain, offering innovative solutions that currently have no equivalent alternatives in the global market.

Traditional exams are burdened by paper waste, slow processing, and high operational costs. Hashmint addresses these challenges by replacing them with fully digital exams—streamlining administration, improving security, and eliminating paper dependency. It's a smarter, more efficient approach to modern assessment.

60% More Time in Manual Grading than Automated Digital Assessments

70% of total exam costs are tied to paper, scanning, transport, and storage.

"After every exam, it was a struggle to get copies of our answer sheets—sometimes we never saw them at all. With digital pads, we can finally view our scripts easily and know where we lost marks."

— Sundaram M, BSc Psychology

"There were concerns about paper leaks and malpractice. With live proctoring and secure digital distribution, we saw a chance to restore exam integrity."

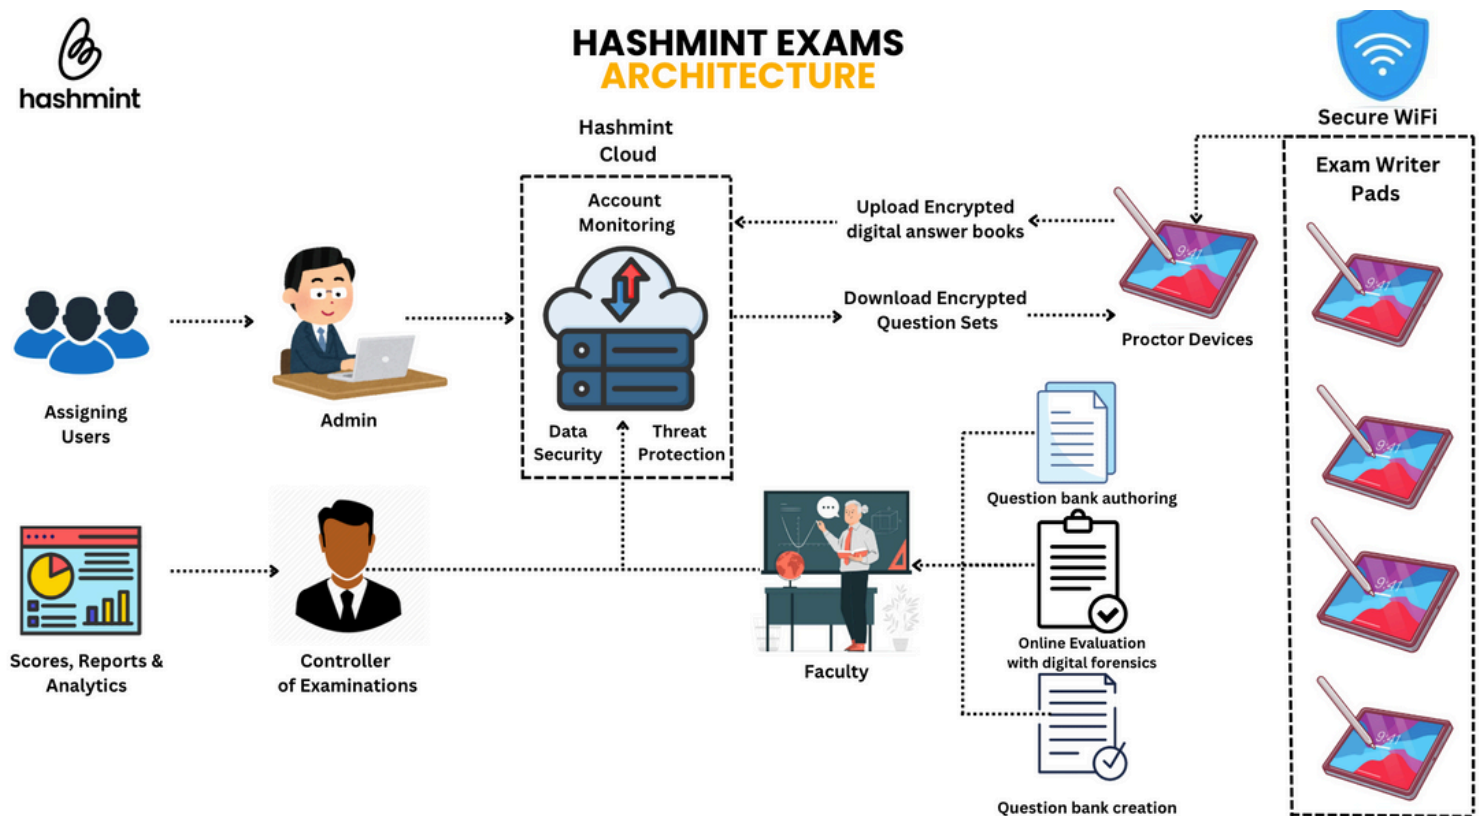

— Dr. Prakash T, Controller of Examinations

"Writing long 3-hour exams with pen and paper was physically exhausting. The stylus on the exam pad feels smoother and way easier on the hand."

— S Kishore, BTech Student

HASHMINT EXAMS

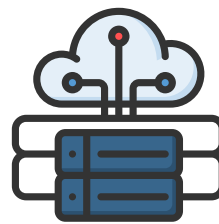

Tailored for high-stakes assessments, Hashmint redefines the traditional pen-and-paper exam experience. Featuring a custom-built operating system and redundant storage systems, Hashmint ensures unmatched reliability and security for critical exams.

Robust and Secure:
Designed to support high-stakes assessments

Biometric Authentication:
Providing secure, personalized access

Multiple Redundant Storage: Protecting exam data with multiple backups

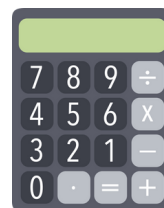

12-hour Battery Life: Ensuring uninterrupted performance throughout exam

Docking and Charging Stations: Effortless recharging and setup

In-Built Writing Tools: Offering an intuitive and seamless writing experience

Calculators and Exam Aids: Ready-to-use tools for precise calculations

Live Proctoring: Real-time monitoring of exam pads during writing minimizes the need for physical invigilation.
